

How to Select GCA contacts that must have an email address.

This will allow you to ensure the contacts you receive will contain an email address.

Start on the GCA contacts tab then bring into your selection the GCA email address indicator and check the box for Y

The screenshot shows the 'System Explorer' on the left and the 'Selection' tool on the right. In the 'System Explorer', the 'GCA Email Address Indicator' is selected. In the 'Selection' tool, 'New Selection 10' is selected, and 'GCA Email Address Indicator of Y' is added to the selection. The 'GCA Email Address Indicator' dialog is open, showing a table with columns 'Include', 'Code', and 'Description'. The row with 'Y' is selected, and the 'Include' checkbox is checked.

Include	Code	Description
<input type="checkbox"/>	U	Unclassified
<input type="checkbox"/>	N	N
<input checked="" type="checkbox"/>	Y	Y

Now add the rest of your criteria such as geography or SIC codes etc. Then click the green triangle to run it.

Once this finishes you can confirm the result by dragging a cube on top of your criteria and then drag into your cube the GCA email address indicator.

The screenshot shows a software interface with a top toolbar, a left sidebar, and a main workspace. The toolbar includes icons for Analysis, Visualization, Modeling, Publish, Calculate, and Modelling. The left sidebar, titled 'Item Explorer', lists various criteria under 'GCA Contacts'. The main workspace, titled 'New Selection', shows a 'Cube' tool with a variable list. A red arrow points from the 'GCA Email Address Indicator' in the criteria list to the 'Cube' tool's variable list.

Criteria List (Left Sidebar):

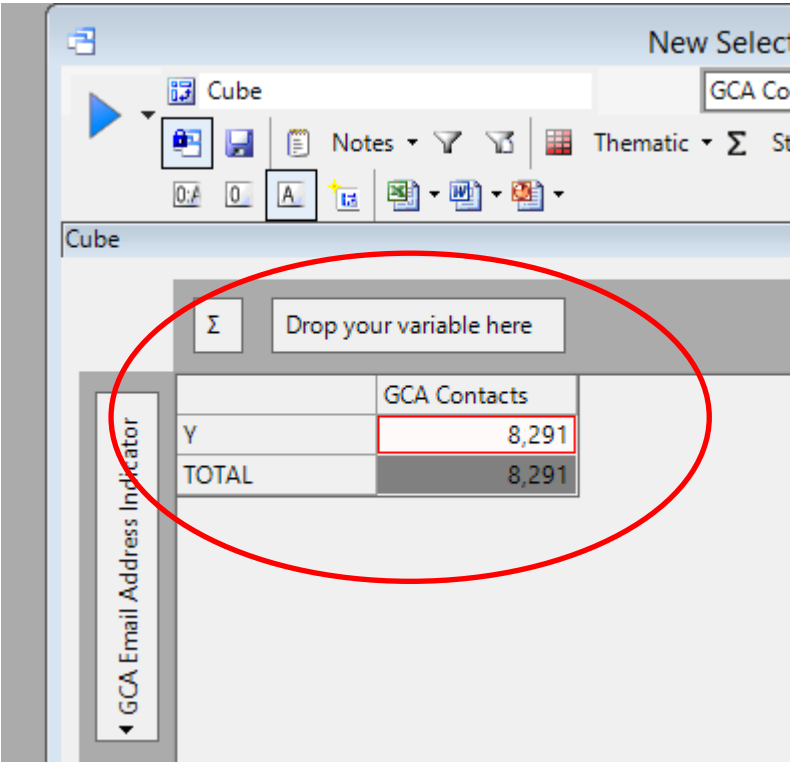

- Model
- HP Revenue
- GCA Contacts
 - ID GCA Contact ID
 - GCA Individual ID
 - GCA Name Prefix
 - GCA First Name
 - GCA Middle Name
 - GCA Last Name
 - GCA Name Suffix
 - GCA Contact Full Name
 - GCA Vanity Title
 - GCA Job Title
 - GCA Contact Phone
 - GCA Contact Phone Extension
 - GCA Secondary Phone
 - GCA Secondary Phone Extension
 - GCA Email
 - GCA Email Domain
 - GCA Email Address Indicator**
 - GCA Master Record
 - GCA CEO Indicator

Cube Tool (Main Workspace):

Drop your variable here

	GCA Contacts
Unclassified	-
N	-
Y	-
TOTAL	-

When this finishes they should all contain Y

The screenshot shows a software interface with a toolbar at the top containing icons for 'Cube', 'Notes', 'Thematic', and 'St'. Below the toolbar, a table is displayed with the title 'GCA Contacts'. The table has two columns: 'GCA Email Address Indicator' and 'GCA Contacts'. The first column contains the values 'Y' and 'TOTAL'. The second column contains the values '8,291' and '8,291'. A red circle highlights the 'Y' and 'TOTAL' rows. The 'Y' row is highlighted with a red border, and the 'TOTAL' row is highlighted with a grey background.

	GCA Contacts
Y	8,291
TOTAL	8,291

You can now license the records and create your data grid.
